CONTINUE, From page one-

by The Honorable Charles Cuddy in this court I was giving a deposition here at the Helman prison. One of the Foster issues Orlando Welch and me also is on a recommendation Transfer to be sent to the Northern prison All delay 90 days to six months Your stay is at the Kilby Correctional Facility in Montgomery AL To Honorable Vanzetta Penn McPherson, I'm well familiar with one defendant In this case its two defendants You only made a emotional outburst about one Donald Campbell Not Levar Thomas IF you familiar with Donald son prison, Or have relatives there, Or you driven there. For a evidentiary hearing Its a lot closer than Helman prison, Surely Kilby is I can easily let this proceed throw objection on Donald Campbell Commissioner Warden Levar Thomas, Deborah Brown of Fura McCreary Since security permits itself Deputy warden is supervisor over security who be officially keep on his cellian unless Life on Death then the warden and all high officials one case say in this Foster you get a Two on two odder closer in distict for five people and the Magistrate her self driven condition So as the burden shift, Due to proper cause for a justice and discrimination I pray the Honorable Vanzetta Penn McPherson grant these objection on these issues, And matter, Not because you personally a member of my Hey organization from Montgomery, Looking into the Foster This would jeopardize us cruel and unusual punishment. Every thing is True and correct so help me God
